Volume 27, No. 2

August, 1990

Bill Marti is 1990 Goerlich Award Winner

William A. Marti, the Sight Center's third chairman of the board of trustees was honored as the recipient of the 1990 John Goerlich Distinguished Service Award at the Volunteer Recognition Luncheon in April.

Bill Marti began his service as a member of the board in 1970. He became chairman in 1978, succeeding John Goerlich. During the ten years of his leadership, the agency had its most significant period of growth. The Toledo Society for the Blind also became known as The Sight Center, developed a new logo, and conducted its first, and highly successful capital campaign. Programs such as that of Prevention of Blindness were expanded and the agency received accreditation by the National Accreditation Council.

Mr. Marti has worked to attract major contributors to The Sight Center and has been a part of the Lions Transportation Committee for many years, driving clients to and from agency sponsored recreational programs.

This year's honoree is the retired president of Canteen Service Company of Toledo. A West Toledo resident, much of Mr. Marti's leisure time is spent on his farm in Pioneer, Ohio. He has generously afforded the agency his time and talent over the years, and continues to do so as an active member of the current board.

The Iris Award — A New Distinction

The Iris Award, a new distinction given to a volunteer nominated by Sight Center staff, was won by John Hirsch. This award will be given annually to a volunteer who displays a positive attitude and whose cooperation has added to the success of the Sight Center's program services. John proved invaluable to the broadcast reading service, SCAN. During 1989, he clocked 776.5 hours of service, reading, preparing copy, and helping other volunteers. When SCAN first went on the air in March of 1988, he was the first reader.

Mr. William Marti received the 1990 John Goerlich Distinguished Service Award.

Other Awards

During 1989, 412 Sight Center volunteers gave over 11,500 hours of time to the agency. Jeanette Hrovatich, Volunteer Coordinator, presented pins and certificates to the following persons: **Five years** — Saretta Burke, Leonard Burns, Mary Cappuccilli, Craig Cappuccilli, Glen Crosby, Pat Fournier, Ray Ketzer, Al Levinson, Brian Miller, Virginia Place, Helen Porter, Bob Sampson, Virginia Stanley, Carl Tamlyn, Mildred Wells, Lilly Yourist; **Ten years** — Al McEwen, Don Norwood, Pauline Samiec, Frank Siska; **Over 600 Hours** — John Hirsch, Nancy Burton; **Over 400 Hours** — Glen Crosby, Jim Etzel; **Over 200 Hours** — Don Schumacker, Ethel Lewis, Don Gabenski, Virginia Lewandowski, Alice Herremann, Charlotte Goodman; **Over 100 Hours** — Barth Riley, Jerry Breier, Leonard Burns, Frank Siska, Bill Van Orman, Pat Clay, Ruth Rudinger, Jean Weber, Doris McCarthy, Jackie Sobecki, Jack Shaffer, Larry Barnes, Jim Babcock, Angie Mierzewjewski, and Kathy Oatis.

The luncheon speaker was Marge Glauser, Assistant Director of the Voluntary Action Center. Ms. Glauser spoke about the importance of each task performed in people-oriented agencies like The Sight Center. She ended her talk with a poem written by

Because of You

My life has been blessed because of you,
with the time you give and the things you do.
My eyes, though blind, can clearly see
the many things you do for me

You may not see as well as I
how much your help means and why
Because of you, I can lead a life full of self-esteem;
and you know how much that can mean.

The smile in your voice brings happiness to my soul.
The things you do for me, so I may reach my goal.
Because of you, I learned to tear down life's may fences
by compensating with the use of my other senses.

Because of you, I have tasted life's goodness that you fed,
in the tapes you recorded and the books you have read.
Your time is precious, yet you give it away.
Unselfishly you give it, so I can find my way.

Your face I may not be able to clearly see.
But, oh how beautiful you are to me.
Your name, if I knew it, I would engrave in gold
for all to see it, both young and old.

You have touched my life and it feels so good.
knowing you cared and did all that you could.

Deane Luce

Deane Luce, a Voluntary Action Center volunteer, entitled "Because of You."

Additional thanks are given to the planning committee for this year's volunteer luncheon. Jeanette Hrovatich was assisted by Nancy Burton, Ethel Lewis, and Jack Shaffer.

Mr. John Hirsch is the first recipient of the Iris Award.

A Message from the President

Barry A. McEwen, President & CEO

I would like to thank all of our donors for your most generous support. **THANK YOU!**

Most people do not realize how important their contributions to the Sight Center really are. People often think the Sight Center is primarily funded by government sources, United Ways, or client fees. That concept cannot be further from the truth. We do get some funding from various government sources. These include public school districts, Ohio Public Broadcasting, Bureau of Services for the Visually Impaired, Head Start, and the Ohio Department of Public Health. Combined, these account for approximately 20 percent of our funding.

Some of the 37 United Ways in our 23 county service area also fund the Sight Center. The Sight Center is very supportive of the concept of United Way. However, dealing with various United Ways and Community Funds on a one-to-one basis is not always efficient. Each requires the submission of a budget (from 1 to 86 pages long) and expect an attendance at an allocation hearing (from 10 minutes to 1 1/2 hours). Once the agency has been accepted, attendance is required by some at monthly meetings in the local community. Some United Ways expect (and rightfully so) participation by us at campaign time at employee solicitation rallies.

While positive for the most part, a great deal of administrative time is necessary to deal with the over 40 funding bodies in this group. This process, while needed, can be expensive and detract from a number of other agency-related activities.

United Ways are varied. Some are well organized with their own paid staff and volunteer network. Others are strictly a group of community volunteers who understand community needs and do their utmost to meet those needs. It is easy to see why there are differences in the levels of success that each attains in generating money to support community services. For example, some area United Ways have a per capita giving in excess of \$20. Others have as little as \$2.00.

Government and United Way sources account for approximately 45 percent of the Sight Center's income. Client fees represent less than one-tenth of one percent of our income. Many of the individuals served are on fixed incomes and

fall below the sliding fee scale. The cost of their services are subsidized by donations. In fact, half of our funding comes from you, the contributor. In the past, some donors have laid the groundwork to insure the continuation of Sight Center services by making a planned gift to benefit the Sight Center upon their death. These wills and bequests have helped to build an endowment fund which currently provides approximately 14 percent of the Sight Center's annual operating budget.

Why is this important? In the rapidly changing economy of decreased government funding, corporate mergers, relocations, and potential mass lay-offs, one of the few guaranteed sources of funds for an agency like the Sight Center is the money generated from its endowment base. In order to permit the growth of this endowment that helps to provide quality services to blind and visually impaired children and adults, the Sight Center's Board of Trustees has wisely endorsed a major wills information program. I will be working directly with you, the individual donor, if you have some desire to make a planned gift to the Sight Center.

My task, with the guidance of your attorney, will be to help you determine what it is you need in your giving plan and to help you determine how to best meet that need, so that your assets are distributed in the way you intend to have them allocated.

I am aware that a number of persons have already included the Sight Center in their estate planning and in their wills. I am requesting that those who have done so to please let me know. I would like to properly thank you for your thoughtfulness and consideration.

Enclosed with this edition of the newsletter is a response card. Please use it to indicate: 1) that you would like to receive information on making a will 2) that you would be interested in attending a wills information seminar 3) that you would like to meet with me about a planned gift to the Sight Center or 4) that you have already included the Sight Center (The Toledo Society for the Blind) in your will. In addition, I would be happy to provide for you more information about the Sight Center or estate planning. Please mark the card, place it in the envelope, and mail it to me.

In the future, I will be sharing with you the importance of having a will and the opportunities available for giving gifts that may benefit you and your family members from a tax or annual income perspective. If you or your attorney would like to discuss any of these topics with me, please call me at (419) 241-1183 or return the enclosed mail-back card.

Crocheting remains a favorite pastime of Muriel Deselms.

Increased Independence For Muriel Deselms

Muriel Deselms describes herself as a fiercely independent woman. She was an only child, has been widowed twice and is the mother of 4 sons. At 68, she still lives independently in spite of the fact that she has macular degeneration and is legally blind.

Crocheting is Muriel's favorite hobby. About 4 years ago, she began to notice that she could not see the stitches very well. Persons with macular degeneration lose their central vision, making it difficult to see details of an object. Although she doesn't read patterns, she was concerned that she was making mistakes that she couldn't see. After opinions from several doctors, she was diagnosed by Dr. Phil Nelsen. He suggested she call the Bureau of Services for the Visually Impaired (BSVI). After a referral from BSVI counselor Barbara Knipple, the Sight Center's Rehabilitation Teacher, Judy Schermer, and Orientation and Mobility Specialist, Mary Reiff, were working with Muriel in her home and neighborhood.

"Judy came to see me and the first thing she did was mark my stove," said Muriel, who reported burning herself a few times. "Her second visit was like Christmas. She showed me how I could light my kitchen counter with a 'Bright Stick,' tell what time it is again with a large print watch, and stop me from spilling liquids with a battery operated liquid level indicator. I can't say enough nice things about how much she helped

me. I was doing things for myself before, but I wasn't doing them right," she said. "Before, I used to sit in my chair and feel kind of useless."

Now, Muriel is doing more things outside her home, as well. "Before Mary came and taught me how to use a white cane, I called the busy street in front of my house 'the river,'" she said. She was terrified to cross "the river", even at the pedestrian crosswalk. Now, she walks to the stores across the street whenever she wants. During a mobility lesson at a local mall, Muriel found a landmark and used that to make it back to the car successfully on her own. "I got a little mixed up, but I found my way. Of course, even though I didn't know it, Mary was right behind me. It felt so good to hear her say, 'I'm proud of you! I'm not scared anymore,'" she said, "I've lost my fear. I think I can visit my son and grandson in Illinois now, and I didn't think I'd be able to do that."

A former waitress and cashier, Muriel's days are filled with cooking for friends and helping her apartment manager to schedule activities for the community room. On Saturdays she helps residents with their purchases from the Mobile Market.

Otherwise, Muriel is crocheting, using a light and magnifier, sitting in a sea of afghans, dolls, pillows, snowflakes and butterflies. At her feet is Muffy, her cat, batting at the scraps of yarn.

Telephone Pioneers Host Special Events

Kevin Roper, age 3, accepts his prize from the Easter Bunny and Telephone Pioneer, Sharon Daugherty, Chairperson of the annual Easter Egg Hunt for blind children. Kevin gathered a whole bag full of beeping Easter eggs. Another 75 persons attended the Shrine Circus in May, also sponsored by the Pioneers. They arranged for audio description, refreshments, and transportation.

The Sight Center extends our sincere thanks to the Telephone Pioneers for their continued support and friendship.

The above information is a summary of the operations of the Toledo Society for the Blind taken from the Society's audited financial statements for the year ended December 31, 1989.

Such information does not include balance sheets, statements of changes in fund balances, or notes to financial statements necessary for presentation of financial information in conformity with generally accepted accounting principles. The Society's audited financial statements are available at the Society's offices.

A Typical Donor . . . You!

Sight Center donors come in all shapes and sizes. This past year, we surveyed about 88 percent of those who are \$3 and over givers to try to get a better understanding of their relationship to the agency, their lifestyles, and their thoughts about the future of our programs and services.

Of all the surveys mailed, about 16 percent replied to our questionnaire. While our results are not scientific, they are interesting. What follows is a loose translation of a **typical donor**.

Both males and females are equally interested in the Sight Center. Most of them have heard about us by mail or word of mouth. Over three-fourths of them know someone who is blind, and most often that is a friend.

Their lifestyles reflect the fact that over half use mail order catalogs, mostly J.C. Penney, Sears, and L.L. Bean. The most popularly subscribed magazines are Readers Digest and National Geographic. An overwhelming majority are daily readers of *The Blade*, followed by *The Wall Street Journal*. Channels 11 and 13 in Toledo were an equal choice among TV stations usually watched, though many enjoy

programs on Channel 30 as well.

Demographically, over half are over the age of 65, married, had children, retired from a profession, attend a Christian church, most having completed high school and many, college. They own their own home, and in some instances, a second home. Half hold CD's and a third own stocks and bonds. Almost 70 percent have life insurance. About 90 percent have a will and approximately 17 percent have named a charity in their will. Nearly half of those who contribute have an income of less than \$30,000 a year. In fact, 25 percent of them earn less than \$15,000.

Of all our benefactors, 75 percent feel that the image of the agency is positive in the community. Most of our donors have visited the agency. They ranked our top three most important programs as rehabilitation teaching, prevention of blindness and counseling.

In short, there really is no typical donor. They are young and old, rich and poor, blind and sighted. Their donations range from \$1 to \$5,000. To provide quality services, the Sight Center needs each one of them, in particular, the typical one . . . you!

Barb Rasik Uses Staff Training to Save a Life

Last Fall, the Sight Center offered a CPR course to staff members taught by the American Red Cross. A few weeks later, Barb Rasik, a vision screener in the Prevention of Blindness Department, was having dinner with her family at a local restaurant. She saw a man choking, and used her new skills to save his life.

This is an excerpt from the letter he wrote to say thank you:

Dear Mrs. Rasik:

I am deeply in debt to you for your prompt action in applying the Heimlich maneuver last Saturday at suppertime in the Friendly Restaurant in Toledo. My wife, a nurse, had tried, but without success, as had one of the waiters. It was your volunteering which made the difference! And I am truly grateful to you and can type these lines because of your help.

It's not often that a person has the opportunity to offer this kind of assistance to another human being. And sometimes those who can help are unwilling to commit themselves—for fear of failing or some other reason. Yet, you stepped out and applied your training in a meaningful way, and what a difference it has made to my life!

Many years ago, I served in the United States Army during World War II in the European Theater of Operations. Of the 250 men who originally

Barb Rasik used her new skills to save a life.

served in my company, there were only three of us left. For a variety of reasons, the others were no longer able to serve in our company. As I later reflected on that fact, I often asked myself: "Why was I spared, when so many others were not? Does God have something for me to do?" That question answered a few years later, when I felt a definite call to the Christian ministry.

For the past 36 years I've served as a Presbyterian minister, the last 30 years as the pastor of a church in North Olmsted. Now my life takes on a new phase, because I've been asking myself (again): What does the Lord have for me to do now? I've also been thinking of you and your family, and I pray that the Lord will give you a special blessing in the days to come! For you and for me, things have changed since last Saturday. Our lives will never be the same; they have been made better because of this 'chance meeting.'

God Bless,
L. Gordon Blasius

Phil Williams, Leslie Baughman, and Charlotte Croskey relax in the Sight Center lobby.

Meet the Sight Center Family

by Kelli Thomas
Communications Intern

The Sight Center would like to welcome three new employees: **Charlotte Croskey, Leslie Baughman, and Phil Williams**. Each brings a unique set of talents and abilities to the Sight Center team.

Charlotte, who is the new mailing coordinator/development secretary, comes to the agency from Crosby Gardens where she worked as the administrative assistant. Charlotte's new job consists of the organization of daily mail and newsletters such as "Goins' On" and *Sightings*. Her primary task is that of direct mail solicitation, sending appeals to agency donors. She keeps records of all donations while working with many dedicated volunteers.

Charlotte lives with her four year old son in Toledo. Three brothers and one sister live nearby. In her spare time, she enjoys roller skating and karate. When asked what she hopes to achieve in the next ten years, she replied, "I hope to be a doctor." She plans to study premed at the University of Toledo.

Leslie Baughman, on the other hand, has just completed years of study. Leslie joined the Sight Center in January as the new children's orientation and mobility instructor. She received a bachelor's degree from Michigan State and a master's degree from Western Michigan University. Leslie is originally from Bay City, Michigan where her parents and a younger brother and sister reside. Because Leslie's undergraduate degree is in Visually Impaired Education, her interest was sparked when she saw an opening for an orientation and mobility instructor at the Sight Center listed in the Job Exchange. When asked what she liked best about her chosen profession, she said "I like the variety. Each child is different and I learn something new every day. You never know everything!"

Leslie is a member of AER (Association of Education and Rehabilitation). She hopes to some day receive her Ph.D. and teach at the college level. Leslie enjoys playing tennis and traveling. She has visited New York and South Carolina and completed her internship in San Francisco.

Another accomplished traveler is Phil Williams, the new production coordinator for SCAN, the newly developed Sight Center Audio Network. Phil is responsible for recording all of the readings from area papers, overseeing the sound production of every broadcast, consulting with Madge Levinson, the SCAN coordinator, about programming, and handling all technical aspects of the studio.

Phil became interested in SCAN while volunteering as a reader. His 18 years of experience in public broadcasting and 8 years in social work blend nicely to make him very qualified for his new position. Phil attended The College of Wooster and received a baccalaureate degree in Philosophy and a master's in Speech and Theatre.

At the top of Phil's own list of his accomplishments is his involvement in the inauguration of two broadcast systems in Toledo. In addition to SCAN, he was instrumental in the birth of WGTE, FM 91. He plans to stay around Toledo and watch SCAN's successful growth.

As an adventurer, Phil has sailed from California to the Sea of Cortez. Some day he hopes to do some long distance blue water sailing. He also has an interest in history and photography. His travels have taken him to various places throughout the United States as well, but his two sons are what brought him back to Ohio. He reports enjoying a straight-forward and simple lifestyle.

Persons like Charlotte, Leslie, and Phil are welcome additions to the Sight Center team.

Memorial Contributions

A permanent record is made of memorial contributions and other gifts to The Sight Center. Memorials are promptly acknowledged in accordance with the wishes of the contributor. The following is a list of memorials, gifts in honor of others, and bequests received by The Sight Center from November 18, 1989 to May 31, 1990.

In Honor Of

The birthday of **Mrs. Stanley Dolgin** by Mr. and Mrs. Lewis Basch

Mrs. Eugene Farbar by Mrs. Jerome Kobacker
New granddaughter, **Lindsay Miller**, by Merl and Marilyn Thomas

Mike Wernert by Mr. and Mrs. John Wernert

In Memory Of

Mildred Anderson by Charles Smith
Minnie Auer by Clara Cleland and family
John Bachmayer by Mr. and Mrs. Clayton Reed

Cleo J. Berkau by Linda Baldwin
Carl Berndt by Dorothy Berndt
Boston Bristol by Mr. and Mrs. John Hrovatic and John Michael

Esther M. Brown by Mr. Everett Brown and Steve and Rosetta Novak

Judith Cassidy by Mr. and Mrs. Lino DeMaria, Mr. and Mrs. Eric Heidelberg, Charles Lyman and family, and Mr. and Mrs. Robert Woitzel

R. Dean Caswall by Nan and Grove Terwilliger
Wernert Cavanaugh by Larry and Pat Soldwish and George and Marion Sullivan

Edward Cray by Alice Levy

A Birthday of Beginnings

It began with Art Edgerton's rendition of "Happy Birthday" and ended with a chocolate cake. It was the celebration of the Sight Center Audio Network's first birthday on March 27 and the inaugural broadcast in the new studios at the agency.

Board members, volunteers, friends from WBGU-TV and WGTE-TV, staff members, and honored guests attended the festivities. Those interviewed during the live broadcast, Barry McEwen, Sight Center President and CEO; Duane Tucker, retired General Manager of WBGU-TV; Bill Block, Jr., of *The Blade*; Julie Fleener of the Bowling Green *Daily Sentinel Tribune*, Elmer Fisher, Director of Ohio Public Broadcasting, John Hirsch and Carol Cover, the first two SCAN volunteer readers, and Ginny Place, SCAN's first listener talked about the program's beginnings and the hard work of many who made the service and the studio a reality. The Sight Center is especially indebted to board member and Development Committee Chairman Tom Day who was instrumental in attracting major donors to fund the \$120,000 studio.

Each day, articles that appear in *The Blade*, *The Daily Sentinel Tribune*, *The Findlay Courier*, and the *Defiance Crescent News* are read by volunteers and broadcast over the second audio program channels of WBGU-TV, Channel 27 and WGTE-TV, Channel 30. Recently, the local weekly paper, *The Toledo Journal* was added to the program schedule.

Much of the credit for the birth and growth of SCAN goes to Madge Levinson, Reading Services Coordinator. Madge is always interested in talking to persons who are print handicapped about becoming listeners. She can be reached at The Sight Center at (419) 241-1183 or 1-800-624-8378. The signal can be received in all 23 counties in the Sight Center service area.

Madge Levinson, (far right) interviews Barry McEwen and Dr. Duane Tucker during SCAN's first live broadcast.

Nelsen, Jr., M.D. Past Chairmen: Edward E. Evans, John Goerlich, and William Marti.

The Pros Are Too Much for the Home Team

Dr. Bill Mestrezat, #8, watches the defense of Cleveland Browns Webster Slaughter and Mike Oliphant.

Is this fair? Nineteen guys against 5 guys? Taking a winning score (and an over 20 point lead) and reversing it at the half? Well, the Cleveland Browns after all are pros, and their propensity for winning drove them to beat the Home Team in the exhibition game played at Savage Hall on April 27. The event was sponsored by the Toledo (Host) Lions Club for the benefit of The Sight Center.

This year, captain Barry McEwen recruited 18 team members of varying ages and abilities, and after one practice shaped them into a challenging force that certainly entertained the crowd. At the half, a sympathetic scorekeeper kindly reversed the wide point margin in favor of the home team, but the Browns proved their skills could beat the odds.

Kristi Thurston of Toledo received a trophy as the winner of the Top Dawg contest. A member of the Northwest Ohio Browns Backers Association, she came to the game in a complete dog suit.

The Sight Center is grateful for the efforts of the Toledo (Host) Lions Club, and especially to Barry Brandt and his committee. A special note of thanks is given to WTVG-TV, Channel 13 and 93Q, KISS-FM for promoting the event.

The Toledo Society for the Blind/**The Sight Center** is a private, independent, non-profit agency serving 23 counties in northwest Ohio and southeast Michigan. The agency is a participant in United Way funding in the counties of Defiance, Henry, Lucas, Ottawa, Putnam, Sandusky, and Wood, and in the cities of Archbold, Delta, Lima, Norwalk, and Swanton.

The Toledo Society for the Blind/**The Sight Center** has been serving the community since 1923. Its mission is to provide services that maximize the independence of individuals who are blind and visually impaired and to minimize the incidence of blindness through education and prevention.

Sightings is published by **The Sight Center**. All comments and correspondence should be directed to: Kathleen Kozy, Vice President/Communications, The Sight Center, 1819 Canton St., Toledo OH 43624-1380; (419) 241-1183 or 1-800-624-8378.

The Sight Center Teams with the Toledo Rowing Club to Sponsor Annual Regatta

May 19 proved a beautiful day for rowing down the Maumee. Over 500 participants and officials gathered at International Park for the 6th annual Toledo International Regatta held to benefit The Sight Center.

Here, the University of Toledo entry in the Women's 4 race heads up the river to the starting gate.
